Organized by

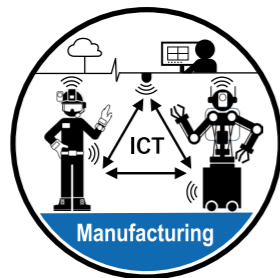

# Aiming to create a workplace where everyone can work in good health and feel a sense of pride & joy

## What is JIOSH+W?

### 1 Enhance well-being of everyone involved in manufacturing

Safety is top priority for manufacturing but well-being takes something more. For this crucial step, JIOSH+W focuses on technologies and products that are not only innovative but well-designed and help people work with confidence, pride and joy.

### 2 Perfect timing : together with Future Monodzukuri International EXPO and during Expo 2025 Osaka, Kansai, Japan

JIOSH+W partners with **Future Monodzukuri International EXPO**, which brings together cutting-edge technologies to address key challenges in manufacturing. The debut of JIOSH+W also coincides with the World Expo 2025. Its theme, 'Designing Future Society for Our Lives', aligns perfectly with the purpose of this event.

### 3 World-leading trade fair A+A coming to Japan

A+A, the global No.1 trade fair in OSH, has its global portfolio including Singapore, Istanbul, Shanghai, Bangkok, and now landing on Osaka. JIOSH+W will be the first to be supported by BASI to introduce conference on the floor.

### 4 OSH experts gathering from around the world

Another major event together is **Safety, Health and Well-being Days**. Supported by ILO, WHO and many other international organizations, OSH experts across the globe will gather here for world congress, summit, symposiums and festival in these four days.

**Safety, Health and Well-being Days**
